Little Hands, Big India

On August 14, 2026, kindergarten conducted the "Little Hands, Big India" activity. The activity aimed to instil a love for the nation and foster a sense of patriotism among the young Desalites.

A variety of age-appropriate activities were organised. PRE-KG Desalites participated in a 'Tricolour Flag Palm Print' activity. The celebration was a memorable learning experience that encouraged patriotism, creativity and active participation among all the Desalites.

Little Scientists

Our little Desalites turned into curious scientists on August 25, 2026, exploring the magic of science through fun, safe and engaging experiments.

From fizzy volcanoes, magic pepper runs and growing rainbows to self-inflating balloons, soda geysers and disappearing flames, every experiment sparked wonder, questions and joyful discovery.

Through hands-on learning and play, our young scientists discovered that science is everywhere and learning can be wonderfully fun.

The Influence that Shapes a Lifetime

A heartwarming and lively Teachers' Day celebration was organised by kindergarten on September 4, 2026, to honour and appreciate the selfless dedication, love and commitment of our teachers. The day was filled with unique activities, creative crafts, adorable presentations and countless moments of joy that left the teaching staff deeply touched and smiling throughout the celebration.

The preparations for the special day began with a beautiful classroom activity. Each Desalite brought a heart-shaped piece of paper from home, featuring a personalised, handwritten note expressing gratitude and appreciation for their teachers. During the first hour, Desalites gathered in their respective classrooms and lovingly compiled these individual tokens of affection. The heart-shaped notes were then carefully bound together to create a beautifully decorated gratitude booklet for each class, a keepsake filled with the Desalites' heartfelt messages.

The excitement grew as the Desalites arrived at school dressed as teachers. The celebration then moved into the individual classrooms, where the little "mini-teachers" took centre stage. Each child stood before their peers and teachers and delivered a short presentation of four to five sentences expressing love, gratitude and appreciation for their teachers. Their confidence, innocence and enthusiasm made these presentations especially memorable.

The celebration concluded on a truly touching note as the handmade heart-shaped booklets were presented to the teachers. Each booklet became a treasured collection of the Desalites' words, love and appreciation.

The Teachers' Day celebration was more than just a festive occasion. It was a beautiful expression of love, respect, gratitude and mutual admiration, creating cherished memories for both the teachers and their little Desalites.

A Walk Through Wonder

Our little Desalites embarked on an exciting campus tour on September 8, 2026, discovering the library, labs, music and dance rooms, infirmary and playground.

Through this experience, they became familiar with their school surroundings, learned essential safety rules and discovered the many spaces where learning happens.

It was a joyful day of exploration, curiosity and new beginnings.

Fun with Shadows

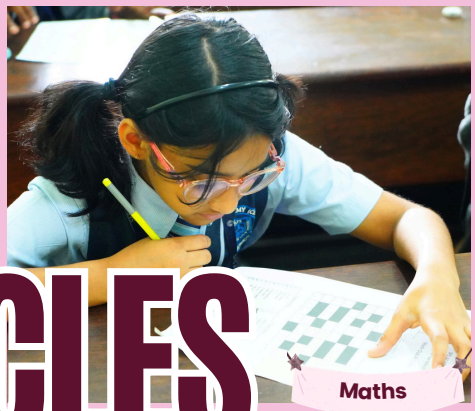

The little learners had a delightful time exploring the wonderful world of shadows through a fun and interactive classroom experience on September 29, 2026. The Desalites watched with excitement as their teachers created playful hand shadows of birds and animals and then eagerly tried making their own. Through this simple yet engaging activity, they discovered that a shadow is formed when an object blocks light.

The fun continued with a shadow matching worksheet, where our young Desalites carefully observed and matched objects with their corresponding shadows. The activity helped develop the Desalites' observation and visual discrimination skills. To make the experience even more special, each Desalite received a shadow-themed handout to take home and continue exploring with their family. It was a lovely day filled with curiosity, imagination, learning and lots of smiles, as our little ones discovered that even an ordinary shadow can hold a little bit of magic.
